ISOLATION

ANXIETY

Our Smart Pups act as a bridge between each child and the outside world as they boost a child's confidence, enhance vocabulary, reduce anxiety, prevent meltdowns and improve sleep patterns.

They can alert guardians to seizures up to 10 minutes before they occur and detect low blood sugar in children with diabetic concerns as well as assist children with mobility concerns to open doors, pick up dropped objects and more.

These pups provide a life-saving and life-changing benefit to the child and their family.

# Fundraising at Your Event: smart support. lifelong impact.

Transform your conference into something truly meaningful by supporting Smart Pups - a local charity changing the lives of children with autism, diabetes, seizure disorders and mobility needs through highly trained assistance dogs.

With a simple add-on to your event, you can help fund a Smart Pup and give a child confidence, independence and companionship that lasts a lifetime. It's effortless to include, powerfully rewarding and creates a lifelong impact.
